**Learn in a hurry at UNM-LA this summer**

The shorter summer term offers an opportunity to pick up a semester's worth of knowledge in only eight weeks at UNM-Los Alamos. Classes begin June 7.

Choose from fun classes like ceramics, photography, Introduction to Opera, photography, yoga, guitar t'ai chi or creative writing. College students can get math, English, science and other courses done quickly during the summer. A number of classes are available online. Jump start your career with business, computer and technology courses. Classes for personal enrichment are also available through UNM-LA Community Education.

UNM-LA offers a wide variety of courses in science, technology, engineering and math during the summer session. Interesting courses in this category include photovoltaics and robotics.

Visit the UNM-LA website at [www.la.unm.edu](http://www.la.unm.edu) to see the full summer schedule and to register. Call (505) 662-0332 for information and help with registration.
