

## Degrees and Certificates offered

### DEGREES

#### **Associate of Arts:**

Early Childhood Multicultural Education

(Bernalillo Site Only)

Liberal Arts

Pre-Business Administration

Pre-Professional Elementary Education

(Bernalillo Site Only)

Southwest Studies

Studio Art

#### **Associate of Sciences:**

Environmental Science

Pre-Engineering

Science

#### **Associate of Applied Science:**

Business/Marketing

Computer Science

Digital Media Arts

Electro Mechanical Technology

Financial Accounting

General Studies

Network Administration

Office Communications and Technology

Technical Support

Web Technologies

### CERTIFICATES

Business/Marketing

Computer Science

Digital Media Arts

Early Childhood Multicultural Education

(Bernalillo Site Only)

Electro Mechanical Technology

Financial Accounting

Materials Science Technology

(Not currently taking new applicants)

Network Administration

Office Communications and Technology

Pre-Professional Elementary Education

(Bernalillo Site Only)

Southwest Studies

Studio Art

Technical Support

Web Technologies

## Associate Degrees and Certificates

The Associate of Arts and Associate of Science degrees are designed for students who intend to transfer to a four-year college or university, with the transfer of credits subject to the receiving institution's policies. Generally, institutions within the state have articulated courses and programs to effect an easy transition.

The Associate of Applied Science degree is designed to provide employment skills for the student. While not usually intended for transfer, specific courses within the degree may transfer depending on the receiving institution. Students planning to transfer to a four-year institution should confer with an academic advisor regarding transferability. The University of New Mexico has adopted a Core Curriculum, which all students must complete as part of a UNM baccalaureate program. The Core consists of approximately thirty-seven hours of courses in seven areas of study, with some noted exceptions. Students may apply AP or CLEP credit to the Core requirements. Departments and colleges may restrict student choices within the Core to meet departmental and college degree requirements. A grade of C (not C-) in each course is required to fulfill the requirements of the Core Curriculum.

Certificates in many programs are designed primarily for students not currently pursuing an associate degree. Courses taken as part of a certificate program are accepted toward an associate degree in that field, as long as the grade earned is a C or better.

All degrees and certificates offered by UNM-Los Alamos are listed below. This list may not be complete because this catalog and program development is ongoing. Students should check with an academic advisor, curriculum coordinator, or division head for program changes.

### Pre-Professional Course Work

For students seeking a career in the health sciences (i.e., nursing, pharmacy, physical/occupational therapy), UNM-LA offers the first two years of study through individual course work. Students are advised to meet with an advisor to customize an individual program of study.

The procedures and policies regarding graduation can be found under "Graduation" in Academic Regulations.
